16th July 2018

Dear Parent/Carer,

We are pleased to announce that the school will be updating our current PE kit for the 2018-19 academic year. The student body, after consultation with student voice, produced the new designs.

The PE kit is now of a higher quality, more durable material, the branding allows our students to be recognisable when they attend sporting events and the overall design fits more appropriately with our school uniform and colour scheme.

Design School are our preferred supplier of the old PE kit, however, they have ceased to stock this product to prevent parents accidentally purchasing it for the next academic year. The new PE kit will be available in August, but can be pre-ordered from today. Design School have offered free delivery to any families who place an order before September, to help the transition.

We are very aware that some students will still have some life left in their current PE kits. To ease things through the transition period, any student in **Year 8 to Year 11 will be allowed to wear the old PE kit until March 31st 2019**. From this point onwards, all students will be expected to have made the transition to the new PE kit.

Yours faithfully

Mr M Rimoldi
Curriculum Leader of Physical Education
