

## **Modern Foreign Language**

The MFL curriculum is designed to inspire and instil a love of language learning through the acquisition of skills, knowledge and cultural understanding of the French/Spanish speaking world. We aim to produce confident, capable and articulate linguists who can work independently in their chosen language with a range of vocabulary, tenses and complex structures. Learners will enhance their cultural capital in order to succeed in multi cultural society, develop a social conscience and prepare for the world of work.
